

How To Guide for Kentucky Medical Cannabis Card Renewals

Kentucky medical cannabis cardholders are required to submit renewal applications **at least 30 days**, and up to 60 days, prior to the card's expiration date.

Complete the following steps to renew your medical cannabis card:

1

Visit a qualified medical practitioner for a new written certification

You may see the same practitioner you've seen previously, and you can find their information in the [Registration Portal](#), or you may find a new practitioner by utilizing the Office's [Authorized Practitioner Directory](#).

Note: Fees and frequencies of visits for written certifications are set by each practitioner and **not** the Office. Please contact your practitioner regarding the fees.

Kentucky law requires an **in-person examination for an initial written certification** with a medical cannabis practitioner.

Written certifications for subsequent visits, including for a renewal application, may be issued electronically or during a telehealth consultation **if you see the same medical cannabis practitioner you initially saw in person**.

2

Review and complete the signature form, which must be notarized

You can find the signature form [here on our website](#).

3

Submit a renewal application via the Patient and Caregiver Registration Portal

Login to the [Patient and Caregiver Registration Portal](#).

From the dropdown menu, select **Patient** and choose **Patient Renewal**.

Please review and update your information and complete your application.

The renewal application fee is \$25. **This fee will be waived in 2026 for Kentucky medical cannabis cardholders who were issued an initial card in calendar year 2025 that has not expired.**

The Office will provide notification to renewal applicants of approval or denial within (30) days of receiving a completed application.
